

The 12th Asia Pacific Poultry Conference – APPC 2023

第十二届亚太家禽大会

Oct. 31st to Nov. 3rd, 2023

Nanjing, China

<http://appc2023.bomeeting.net>

Organizers and the theme

第十二届亚太家禽大会
12th APPC, Nanjing, 2023

International Organizer

- World's Poultry Science Association-Asia Pacific Federation (WPSA-APF)

Local Organizer

- Chinese Association of Animal Science and Veterinary Medicine CAAV

Co-organizer

- Poultry Science branch of CAAV
- Poultry veterinary branch of CAAV
- Beijing Boyar Communication Co., Ltd (PCO)

Supporting organization:

- China National System for Layer Production Technology
- China National System for Waterfowl production Technology
- China National System for Broiler production Technology
- China National Animal Husbandry S&T Innovation Alliance
- Guangdong Association of Animal Husbandry and Veterinary Medicine
- State Key Laboratory of Animal Nutrition and Feeding, CAU

中国畜牧兽医学会
Chinese Association of Animal
Science and Veterinary Medicine

Scientific Solution for Safety and Healthy Poultry Industry

Sponsors List

Conference main topics

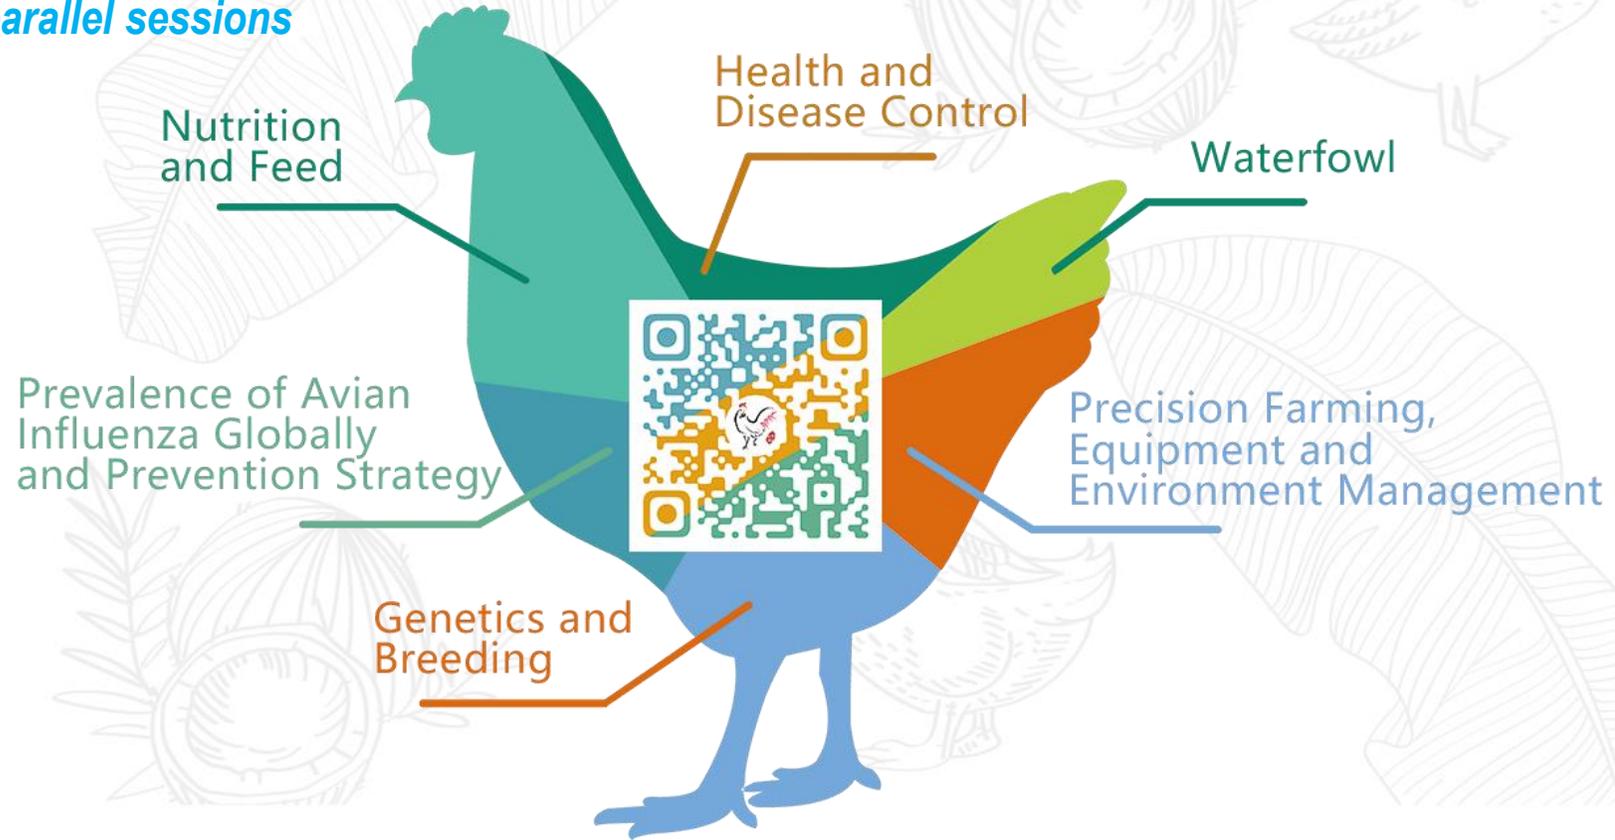

第十二届亚太家禽大会
12th APPC, Nanjing, 2023

The conference will cover the latest knowledge of all aspects related to poultry industry.

The main topics will be presented through six parallel sessions

Well-known experts, scholars and chief technical officers will be invited to exchange classic theory, newest research and practical solutions through keynote speeches, lighting talks, and round-table discussions.

You can get more information

第十二届亚太家禽大会
12th APCC, Nanjing, 2023

You may also enjoy some interesting talks and innovative ideas during special workshops, networking moments or technical visits

What will be the most practical solutions for avian influenza, can world learn some from China experience?

Will the low protein feed work for poultry sector and meantime support sustainable development

What is the progress of native poultry breeding of in China and ASEAN?

Could the China local poultry species be raised in other countries?

Is the cage-free egg production really going to be a necessary model?

How will international trade of poultry meat develop in the coming period?

In China, how popular are the ready to cook products from poultry meat or egg?

Could the smart management system help you to make more money?

What is the general farm equipment level in poultry production of WPSA-APF members regions?

What are the main materials and products China poultry production needs to import from overseas?

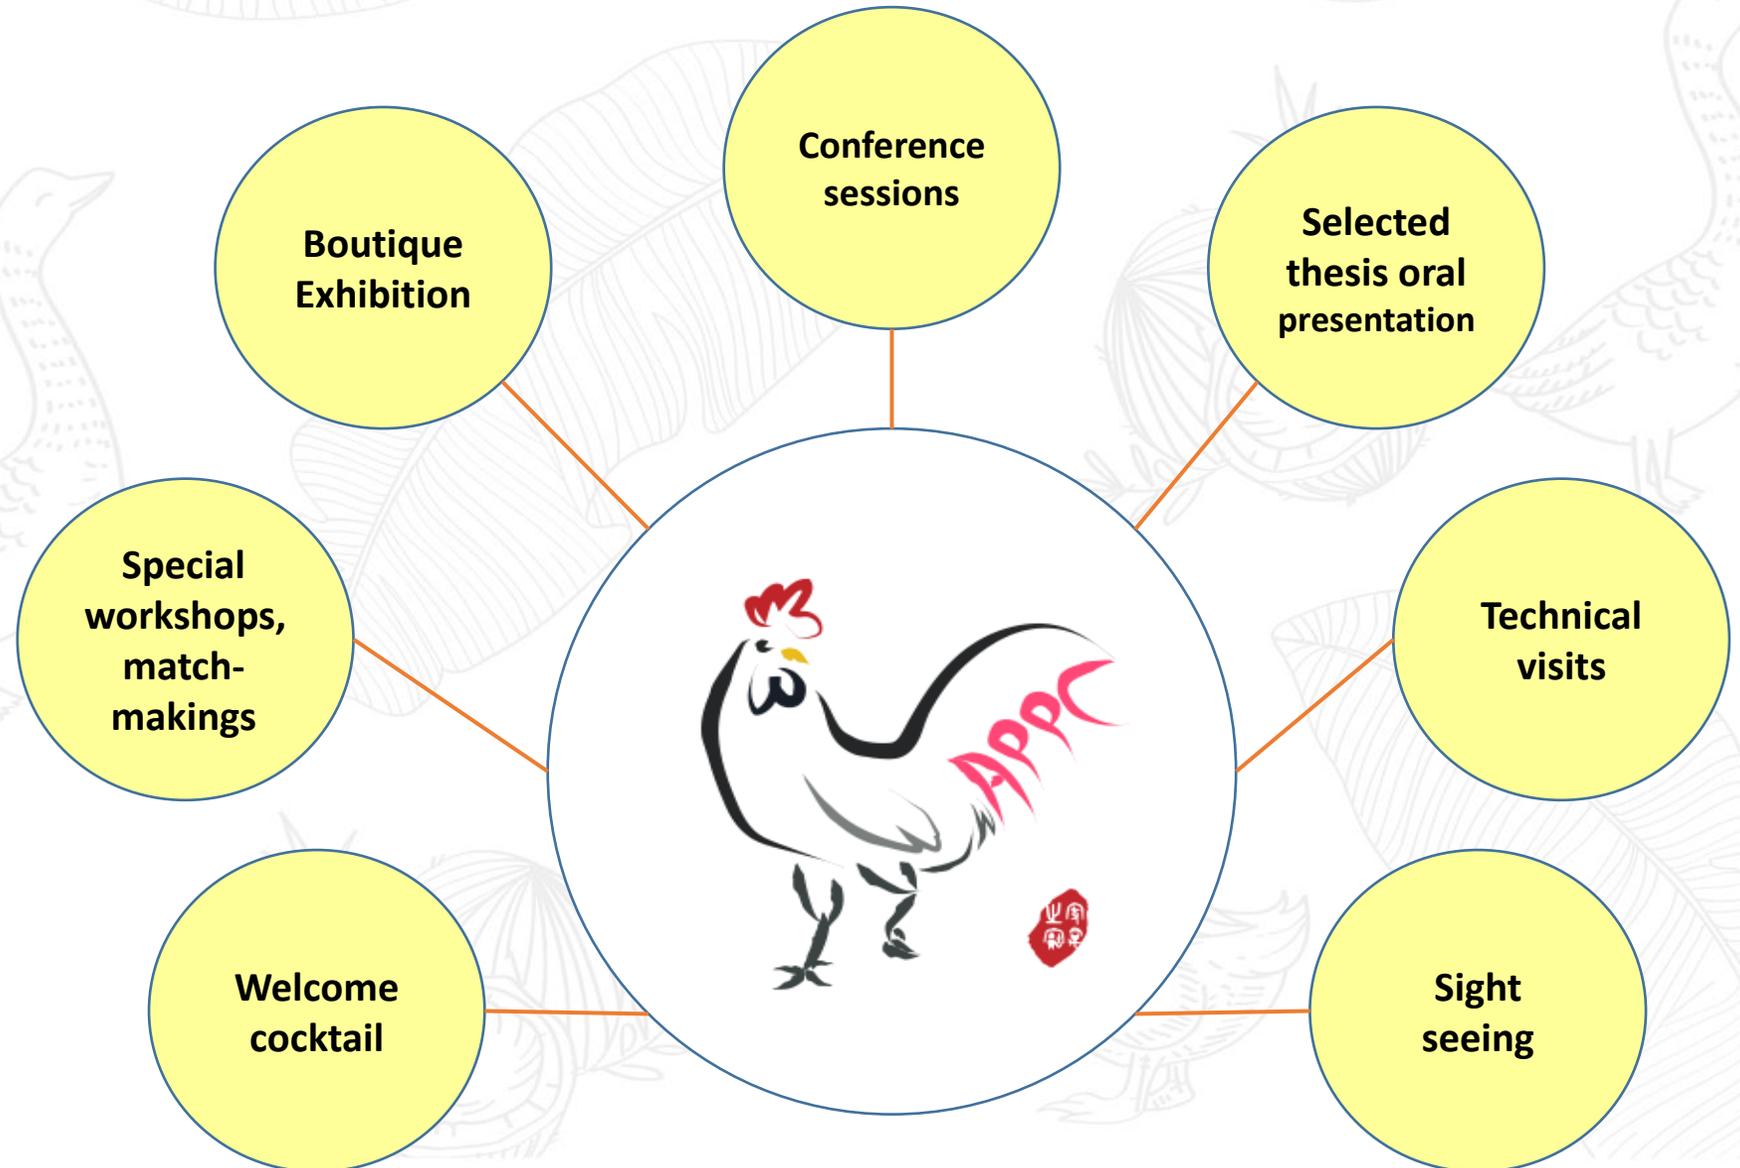

There are more activities

第十二届亚太家禽大会
12th APPC, Nanjing, 2023

The nicely planned and combined activities will bring you a wonderful experience!

Meet friends, learn Knowledge, collect information, share opinion, networking, discuss cooperation and enjoy some leisure

The key reasons to join APPC 2023

第十二届亚太家禽大会
12th APPC, Nanjing, 2023

1

APPC is a regular and famous international conference with **long history** under WPSA-APF structure and it covers all aspects of poultry industry.

2

Focusing on Asia Pacific region which are **the strongest area** in the poultry production among the whole world, and still have much potentials.

3

Hosting Country - China has a lot to be highlighted no matter on poultry production, science study, newest research, innovations or industry demand.

4

Conference will invite **more than 80 top level experts and scientists** from China and all around the world to share the latest knowledge on different topics.

5

In 2023, it is expected to have **1,500 to 2,000 attendees** to join the conference from Asia Pacific region and other areas of the world.

6

A series of **service and settings** will help to expand networking and exchange information. You can also enjoy the **local food, technical visits and sightseeing**.

The Agenda

第十二届亚太家禽大会
12th APPC, Nanjing, 2023

Date		Session/Activity	Time
Oct.31st	Afternoon	Registration	14:00-19:00
		PPT collection	14:00-19:00
Nov.1st	Full Day	Registration	08:30-19:00
		PPT collection	09:00-19:00
		Exhibition and booth visit	09:00-20:30
	Morning	APF Branch Presidents Annual Meeting (On invitation only)	09:30-12:00
		Oral presentation of selected papers	08:30-12:00
		Platinum Satellite Session (Elanco)	09:00-12:00
	noon	Lunch	12:00-13:30
	Afternoon	Opening Ceremony	14:00-14:30
		Plenary Conference	14:30-18:00
	Dinner	Welcome Cocktail	18:00-20:30
Nov.2nd	Full Day	Exhibition and booth visit	09:00-18:00
	Afternoon	Genetics and breeding -1	08:30-12:00
		Health and disease control -1	08:30-12:00
		Waterfowl -1	08:30-12:00
		Nutrition and Health -1	08:30-12:00
	noon	Lunch	12:00-13:30
	Afternoon	Platinum Satellite Session (Pulike)	13:30-17:30
		Genetics and breeding -2	13:30-18:00
		Health and disease control -2	13:30-18:00
		Waterfowl -2	13:30-18:00
	Nutrition and Health -2	13:30-18:00	
Nov.3rd	Full Day	Exhibition and booth visit	09:00-18:00
	Morning	Precision Farming, Equipment and Environment Management	08:30-12:00
		Nutrition and Feed -1	08:30-12:00
	noon	Lunch	12:00-13:30
	Afternoon	Prevalence of Avian Influenza Globally and Prevention Strategy	13:30-17:30
		Nutrition and Feed -2	13:30-17:30
	APPC Closing	17:30-18:00	

1.1

The history of APPC

WPSA-Asia Pacific Federation was founded in Singapore in 1981, which was initiated by scientists from Australia, Japan, South Korea, Malaysia and New Zealand. At present, the membership of WPSA-APF has developed to ***Australia, Bangladesh, China, Fiji, India, Indonesia, Iran, Japan, South Korea, Malaysia, Nepal, New Zealand, Pakistan, Papua New Guinea, Philippines, Singapore, Sri Lanka, Thailand and Vietnam.***

In 1983, the first Asia Pacific Poultry Conference (APPC) was held in Adelaide, Australia. The Asia Pacific Poultry Conference was successfully held in 8 other countries and regions for 11 editions and has become an very important platform for science, technology, innovation exchange and cooperation.

In 2023, it is the right time to follow the step of APPC to go to China to participate the 12th edition of the global top level conference for poultry industry.

1.2 A short review of last edition – the 11th APPC

PROGRAM BOOK

WELCOME MESSAGE

The Asia Pacific region is one of the most important growing markets in animal production. Thailand is an agriculture country in this region with a very well integrated, significant poultry industry, which produces poultry products not only for the domestic market, but also for export.

In Year 2018, the World Poultry Science Association (WPSA) Thailand Branch will be an organizer for 11th Asia Pacific Poultry Conference (APPC2018). This event will be held on Mar.25-27, 2018 in Bangkok, Thailand. We do expect to have more than 1,200 participants. The Conference will be covering the latest knowledge of all aspects related to poultry industry such production (Nutrition and metabolism, Gut health management, Biotechnology and Molecular and Genetic), farm & health management / food safety, and nutrition and feed technology. There are 8 keynotes and 14 lectures from world-renowned speakers. Besides of lectures, there are more than 130 oral and poster presentations from over the globe joined this conference. This event will give an opportunity to the attendees to increase the knowledge and to exchange useful information.

I would like to welcome you to APPC 2018, Bangkok and I wish you to have a great time during you stay with us.

Sawasdee krab.

Dr. Sakchai Sriboonsue
The President, APPC 2018

Country/Statistic-2021	Slaughtered chickens (unit: 10,00)	Meat of chickens (unit : ton)	Laying hens (unit: 10,00)	Egg in shell (unit: ton)	Slaughtered ducks (unit: 10,00)
Australia	677,630	1,292,240	16,809	269,137	7,120
Bangladesh	308,840	216,198	217,500	798,592	60,460
China	11,514,920	15,420,668	3,233,167	34,544,017	3,610,640
Fiji	13,020	25,715	531	8,901	290
India	2,732,470	3,670,156	560,000	6,710,000	33,800
Indonesia	4,573,210	3,844,346	368,192	5,519,133	50,980
Iran	1,881,310	1,983,328	53,011	782,864	1,520
Japan	845,440	2,435,965	140,697	2,574,255	0
Malaysia	622,830	1,558,809	105,333	828,522	22,110
Nepal	272,850	226,959	11,374	75,018	590
New Zealand	118,760	226,259	4,147	69,866	370
Pakistan	1,533,000	1,809,000	108,720	1,022,254	3,970
Papua New Guinea	7,330	6,725	1,690	5,294	20
Philippines	1,123,700	1,343,496	119,056	711,841	15,620
Singapore	48,030	80,840	2,874	29,638	4,820
South Korea	1,052,230	935,000	72,612	767,690	21,730
Sri Lanka	180,840	230,616	7,040	109,453	20
Thailand	1,293,880	1,784,304	95,833	1,122,300	25,160
Vietnam	802,350	1,520,263	76,586	411,032	128,250
subtotal APF	29,602,630	38,610,887	5,195,172	56,359,808	3,987,470
World total	73,791,050	121,588,358	8,100,341	92,562,543	4,309,520
APF : World	40.12%	31.76%	64.14%	60.89%	92.53%

According to *FAO figures* in 2021, we can calculate the total poultry production of WPSA-APF members regions were taking very high percentage of the world total production on all the main sectors:

- slaughtered chickens: 40.12% ;
- meat of chickens: 31.76% ;
- laying hens: 64.14%;
- egg in shell: 60.89%
- slaughtered duck: 92.53%.

Advantages

According to “China animal husbandry industry statistic” in 2021, in China, there were:
Over 40,000 farms with scale more than 10,000 laying hens;
Over 32,000 farms with production of more than 50,000 chickens for slaughtering;
The total poultry production for slaughtering was more than 1.574 billions.

China has achieved obvious progress on native genetics and breeding development.

The farm and house equipment level in poultry sector is already very high, and smart management system has been put in use practically.

Although with massive vaccine, to some extent, China has effectively prevented the wave of global Avian Influenza with China model.

Already in post-COVID stage, now it is a right time for people from overseas to take international trip to go to China to travel and investigate industry since 2020.

4.1 About plenary session and keynote speakers

"Highly pathogenic avian influenza control in China"

Prof. Hualan Chen

Academician of CAS,
Researcher, Harbin Veterinary Research
Institute, CAAS

"Waterfowl Industry and relevant technology Development"

Prof. Shuisheng Hou

Academician of CAE,
Researcher of Beijing Institute of
Animal Husbandry and Veterinary
Medicine, CAAS,
China Chief Scientist of the National
Waterfowl Industry Technology System

"Poultry genetics and breeding"

Yuval Cinnamon, Ph.D.

PI at Agricultural Research Organization -
The Volcani Institute,
CSO- Poultry by Huminn

"Global trends in meat and poultry development"

Nan-Dirk Mulder

Senior Global Specialist Animal
Protein at Rabobank

Invited Speakers and Presentations - Genetics and Breeding

Prof. Zhao Guiping

Genetic Progress of Guangming No.2 Broiler

Dr. Avigdor Cahaner

70 years of broiler breeding for rapid growth

Prof. Li Zhenhui

Gene mapping of antler comb and its application in chicken breeding

Prof. Wang Kehua

Genetic Improve on local layers in China

Prof. Zhang Hui

Identification of important genes and markers affecting body fat deposition in white feather broilers

Ph.D. Zhang Dexiang

The report on Wen's quality chicken breeding work

A.P. Zheng Jiangxia

Poultry breeding for egg quality

Prof. Jim Kaufman, Ph.D

The avian major histocompatibility complex

Ph.D., Wu Guiqin

Layer Breeding: From China to the World

Dr. Luo Pingtao

The development on 'SZ901' breeding From an Industrial Perspective

Prof. Shu Jingting

Preliminary study on breeding techniques of slaughtering traits of the yellow-feathered broiler

Dr. Wang Kun

Genome-wide Association Study of Pectoral Muscle Development in an F2 Resource Population Constructed Based on Yunnan Local Chicken

Jae Yong HAN, Ph.D

Topic: to be decided

Invited Speakers and Presentations - Health and Disease Control

Prof. Qin Aijian, Ph.D.

Epidemic Status and Control of Avian Leukemia

Prof. Venugopal Nair, Ph.D.

Marek's disease: A major challenge for poultry health & an excellent model for viral oncogenesis

Prof. Liu Shengwang, Ph.D.

Vaccine and prevention and control of infectious bronchitis

Prof. Diao Youxiang, Ph.D.

Epidemic situation and prevention and control of new outbreaks of waterborne diseases

Sun Yingchun

Overview of the "123+3456" model for biosafety in poultry farms

Ph.D., Wouter Depondt

Comprehensive prevention and control strategies for *Mycoplasma gallisepticum* and *Mycoplasma gallisepticum* in chicken synovial fluid

Prof. Liu Jue

An emerging avian metapneumovirus infection: Occurrence, distribution, and pathogenesis.

Prof. Munir Iqbal, Ph.D.

Selectively targeting antigens to chicken immune cells induces faster and stronger immunity in chickens with high levels of maternally derived antibodies

Dr. Zhang Tao

Effects of Natural Plant Extracts on Intestinal Health of Poultry

Prof. Xie Qingmei

Research and development of poultry viral vector vaccines

Prof. Sun Mingfei

Crystal Structure analysis of *Eimeria tenella* HK and Drug Discovery

Prof. Wang Hongning

Prevention and control of bacterial diseases and decontamination of *Salmonella* in laying hens under the background of reduced antibiotics

4.4 Invited Speakers and Presentations - Waterfowl

Prof. Zhou Zhengkui, Ph.D.

Genetic Code of Delicious Duck Meat

Prof. Chen Guohong, Ph.D.

Exploration and Innovative Utilization of Runzhou Crested White Duck
Genetic Resources

Prof. Tang Yi, Ph.D.

Infection and prevention of waterfowl parvovirus

Prof. Wang Wence, Ph.D.

Advance research in nutrition metabolism of waterfowl

Researcher, Walter Van Hofstraeten

Effect of dietary protein levels on growth performance and carcass
traits in White Pekin ducks

Prof. Wang Qigui

Investigation of meat goose breeding technology and variety innovation

Prof. Shi Zhendan, Ph.D.

Water fowl egg incuation technology-the state of the art

Prof. Dai Zhongqiu, Ph.D.

Technology to Improve Feeding Efficiency and Modulate Meat Quality
of Sheldrake

Prof. Lu Lizhi, Ph.D.

to be decided

A.P. Xie Ming

Research advance in low-protein diets in meat ducks

Invited Speakers and Presentations - Nutrition and Health

Prof. Lin Hai

Gastrointestinal hormones and the regulation of fat metabolism

Prof. Todd J Applegate

Influence of functional amino acids on intestinal health of the broiler

Prof. Xu Yongping

Research and Applications of Bacteriophages in Poultry Health

Prof. Matthew Koci

Using metabolomics, transcriptomics, and bioinformatics to understand how the microbiome communicates with the immune system.

Prof. Zhang Haijun

In ovo feeding and intestinal health in poultry

Dr. Liu Qiong

Research and application of functional enzymes

Dr. Lv Huiyuan

Research and Application of Plant Extracts to Improve the Intestinal Health of Poultry

Prof. Guo Yuming

to be decided

Invited Speakers and Presentations - Nutrition and Health

Steven Goh

"Forensic Feed Science - Digital feed Imaging and Pellet Quality"

Prof. Hu Yongfei

Research Advances in Poultry Gut Microbiome

Dr. Li Ning

Research progress and application of mycotoxin degradation technology in poultry

Dr. Mei Xuefeng

Cocrystal Technology Used for Animal Health Breeding

Prof. Yang Xiaojun

Nutritional control strategies of mucosal barrier in poultry digestive tract

Prof. Jiang Shouqun

Research Progress of Functional Components with Antioxidant and Immunoregulation Activities in Yellow-Feathered Broilers

Tahir Mahmood

Implications of low protein diets - Challenges and opportunities

A.P. Vishwajit Sur Chowdhury, Ph.D

A novel heat stress bio-marker amino acid, L-citrulline, attenuates heat stress response in chickens

Invited Speakers and Presentations - Nutrition and Feed

Prof. Michael T. Kidd, Ph.D.

“Towards more nutrient minimum constraints: Histidine

Prof. Zhang Bingkun, Ph.D.

The Underlying Mechanism of the Aging Process in laying hens and its Related Regulation

Prof. Shi Shourong, Ph.D.

Study on Enhancing the Host's Resistance to Salmonella Enteritis Infection by Intestinal Microorganisms in Tibetan Chickens

Prof. Ma Qiugang, Ph.D.

The Toxic Effect of Mycotoxins on Poultry and Its Harmful Prevention and Contro

Zhan Zhenfeng, Ph.D.

Helping poultry improve efficiency and reduce costs through plant-based solutions

Natalie Morgan, Ph.D.

The Chemical Structure of Xylooligosaccharides and Their Nutritional Effects in Poultry Diets

Prof. Wang Jing, Ph.D.

Nutrition Modulation of hen's health and egg quality for extended laying cycle

Prof. Shi Donghui, Ph.D.

Effects of Oregano Essential Oil and Compounds on Growth Performance and Intestinal Health of Broilers

Prof. Nasir Mukhtar, Ph.D.

Effects of fasting time and body weight on ileal amino acid digestibility in broiler breeders

Researcher, Walter Van Hofstraeten

Benefits of using a digital life cycle assessment tool to access the environmental footprint of low protein broiler diets

A.P., Wang Xiaojuan, Ph.D.

Energy metabolism regulation in stressed poultry

Prof. Sun Lvhui, Ph.D.

Selenium requirements for broiler breeder roosters

Invited Speakers and Presentations - Precision Farming, Equipment and Environment Control

Prof. Zhang Hongfu, Ph.D.

Innovation and application of three-dimensional intelligent breeding model for broilers

Prof. Theo Demmers, Ph.D.

Autonomous monitoring robots for poultry: health and welfare benefits

Prof. Li Baoming

Digitalization and intelligent innovation of equipment for healthy poultry farming

Prof. Zheng Weichao

Research and practice on welfare oriented three-dimensional free range breeding technology and equipment for laying hens

Elissa Lane

Successful management practices in cage-free systems in Asia

Prof. Chen Changxi

Research and application of intelligent production of broiler chickens based on information technology in the new stage

Prof. Liao Xindi

Harmless treatment and resource utilization of chicken manure

Invited Speakers and Presentations - Prevalence of Avian Influenza Globally and Prevention Strategy

Prof. Liao Ming

Prevalence of Chinese Avian Influenza and Prevention Strategy

Prof. Zhai Xinyan

China's experience in avian influenza prevention and control

Ph.D., Chang Cai

Technical specifications for the global epidemic situation and response measures of avian influenza

Prof. Tian Kegong

Research and development progress of highly pathogenic avian influenza subunit vaccines

Ph.D., Chen Ning

Advanced Technology in Avian Influenza Vaccine Development

Laura LAN

Development and application of AI vaccine with broader protection

5.1

Expected Participation

There will be 1,500 to 2,000 professionals from the whole chain of poultry industry, including the professors and scholars from university, the representatives and officers from institute and government, the chief technical officers from enterprises, the decision makers and management from large farms and poultry production related sectors (feed, feed additives, animal health – vaccine, veterinary medicine, farm & house equipment, waste treatment, etc.).

The joint participation from China, from WPSA-APF and from all around the world

10+

Countries to participate

1,500-2,000

Poultry Industry Professionals

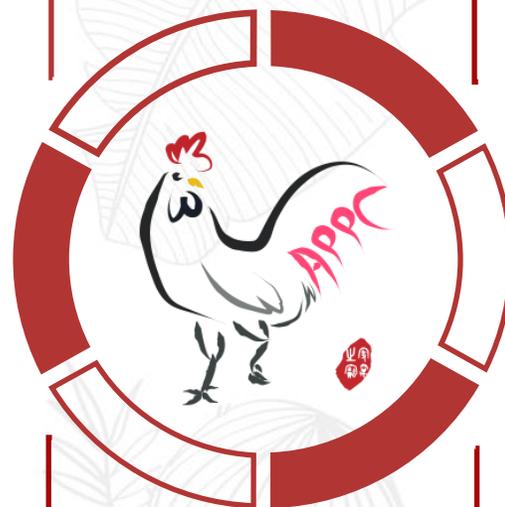

300+ PhDs

500+

Companies, Institutes and organizations

2,000 SQM+

Boutique Exhibition

A part of China top poultry groups under organizer's invitation
